- Cohort Registration Form
- Practice Knowledge Assessment, with Answer Scheme
- MOET Portfolio Checklist and Portfolio Index

EUIAS Level 3 End-point Assessment for Maintenance Operations Engineer Technician - Control and Instrumentation

Gateway Eligibility Report

(Standard Version: ST0154 version 1, 2016; Assessment Plan Version: ST0154/AP02)

Apprentice's details

Apprentice's name:	Apprentice's job title:
Name of Employer:	Name of Training provider:
Employer representatives present:	Training provider representatives present:
Apprenticeship start date:	Apprenticeship on-programme end date:
Gateway meeting date:	
Has the apprentice taken any part of the end-point assessment for this apprenticeship standard with any other End Point Assessment Organisation?	Y/N
If "Yes" please give details:	

Eligibility requirements for MOET

The apprentice must confirm their achievement of the following:

Eligibility requirement	Achieved by the apprentice? Y/N	Evidence (scans of certificates MUST be included)
Achieved English level 2		
Achieved maths level 2		

Gateway Eligibility Declaration

The apprentice, the employer and the training provider must sign this form to confirm that they understand and agree to the following:				
	 The apprentice has completed the required on-programme elements of the apprenticeship and is ready for end-point assessment with EUIAS 			
2.	The apprentice will only submit the	eir own work as par	t of end-point asses	sment
	All parties agree that end-point as assurance purposes	sessment evidence	may be recorded ar	nd stored by EUIAS for quality
4.	The apprentice has been on-prog	ramme for a minimu	m duration of 365 d	ays
5.	The apprentice has achieved the r	mathematics and Er	nglish requirements a	as detailed in this document
 The apprentice, if successful, gives permission for EUIAS to request the apprenticeship certificate from the ESFA who issue the certificate on behalf of the Secretary of State 				
7.	The apprentice has been directed	to the EUIAS Appe	als Policy and Comp	plaints Policy
8. The employer/training provider has given the EUIAS at least three months' notice of requesting this EPA for this apprentice				
9. If the Gateway Eligibility Report is not completed in full, meeting all requirements, and submitted to EUIAS, the end-point assessment cannot take place

Cohort Registration Form (v2) Section 1 Main Details

Standard and AP number	
Number in cohort, by pathway	
Cohort start date	
Expected Gateway date	

Employer Name	
Lead Provider Name*	

* (this may be the employer).

Employer Contact Name	
Employer Contact Details (address, phone and email)	
Employer Reference Number (ERN)	
Lead Provider Contact Name	
Lead Provider Contact Details (address, phone and email)	
Lead Provider Reference Number (UKPRN)	
Date of Service Level Agreement between EUIAS and Lead Provider (EUIAS to complete)	

EUIAS Unique Cohort Identifier (UCI) Number:

Section 2 Service Details

The scope of the end-point assessment service is listed in Section 4 of the Service Level Agreement agreed with the lead provider.

EUIAS end-point assessment policies can be found at www.euias.co.uk

The agreed pricing is detailed below.

	Stage 1 - Registration	
End-point Assessment Price per apprentice	Stage 2 – Gateway / End-point	
	TOTAL	

Cancellation price for EPA element 1 (specify):	£
Cancellation price for EPA element 2 (specify):	£
Cancellation price for EPA element 3 (specify):	£

Re-sit / re-take price for EPA element 1:	£
Re-sit / re-take price for EPA element 2:	£
Re-sit / re-take price for EPA element 3:	£

Cancellation charges (these are in line with section 10.9 of the Service Level Agreement)		
Less than 48 hours	Payment in full for the specific end-point assessment	
Less than 40 hours		
	activity plus any travel and subsistence costs incurred	
	and any additional assessment(s) that cannot be	
	rescheduled due to the assessment plan stage	
	requirements	
More than 48 hours but less than 5 days	50% payment of the full payment for the specific	
	end-point assessment activity and any travel and	
	subsistence costs incurred that cannot be cancelled	
Greater than 6 days but less than 10 days	25% payment of the full payment for the specific	
	end-point assessment activity and any travel and	
	subsistence costs incurred that cannot be cancelled	
More than 10 days	No additional charge for the specific end-point	
	assessment activit <mark>y</mark>	
Other (if applicable)		

EUIAS – supplied assessors/technical experts:	£
Assessors supplied by employer	
Invigilation:	£ (per invigilator)
EUIAS approval of additional/alternative assessment facilities:	£ (per site)
Learner/employer workshops, technical briefings etc:	£ (per briefing, plus travel expenses)

Section 3 - Account Registration for Finance and Invoicing (if not provided in a previous Cohort Registration Form)

To be completed by the main provider (the organisation on the Register of Apprenticeship Training Providers (RoATP), that will be contracting with the EUIAS on the employer's behalf).

Use details already provided:	Yes / No

Or complete the information below:

Lead Provider Name		
Address and Postcode		
Contact Name	Telephone No.	
Email Address	Company No	
Email Address for Statement	VAT no.	

Invoice Details – if different from above

Contact Name		Telephone No.	
Invoice Address and Postco	de		

Account Payable Details – if different from above

Contact Name	Telephone No.	
Invoice Address and Postcode		

Purchase order number/details for Stage 1 payment

Section 4 - Declarations

Employer Declaration

This is to confirm that the [employer] has selected the Energy & Utilities Independent Assessment Service (EUIAS) as their end-point assessment organisation for the stated apprenticeship standard and cohort, and that the details supplied in this form are correct.

Employer Name	
Contact Name:	
Job Title:	
Signature:	
Date:	

Lead Provider Declaration (this may be the employer)

This is to confirm that the [Lead Provider] is approved on the Register of Apprenticeship Training Providers and will contract with and pay Energy & Utility Skills Limited (trading as Energy & Utilities Independent Assessment Service) on behalf of the employer for the delivery of end-point assessment. This is also to confirm that the details supplied in this form are correct.

Lead Provider Name	
Contact Name:	
Job Title:

Date:	

MOET Practice Assessment

Please write clearly in block capitals below		
Company Name		
Forename (s)		
Surname (s)		
Date of Birth		
Apprentice Number		
Apprentice signature		
Date of Knowledge Test		

Level:	3	
Standard:	Maintenance and Operations	
	Engineering Technician	
Pathway:	Control and Instrumentation	
Duration:	45 minute	es

Materials

For this paper you must have:

- Pens
- Calculators and reference documents are not required

Instructions

- Use black or blue ink or black ball-point pen
- Fill in the boxes at the top of this page
- Answer **all** questions
- There are questions, possible answers as well as a column for you to mark your answer

• Mark your answer with an \boxtimes against the possible answer you think is

correct- if you wish to change your answer please put a line through and

re-select with another X

- Only one answer per question allowed. Answers which do not follow the rules of selection will be disallowed. This may impact on the grade awarded
- Do all rough work in this answer book, spare paper is provided in this answer booklet and can be used but **MUST NOT** be removed
- Additional spare paper will not be provided
- All questions are closed book

Sample:

London is the capital of....

Exa	mple Question	
Lond	on is the capital of	
Poss	sible answers	Answer
a)	Wales	×
b)	Scotland	
c)	Northern Ireland	
d)	England	X

Information

- There are 30 questions in total
- All questions should be attempted

Advice

- You are not permitted to leave the examination room for the duration of the assessment
- Do not spend too long on one question
- Read all questions thoroughly before starting your examination
- Mobile phones and watches must not be taken into the examination room. The examination must be conducted under examination conditions i.e. you

may not speak to other candidates, if you have a problem raise your hand and the invigilator will attend

• Cheating: you will be asked to leave the examination room and will be classified an automatic fail and referred to your employer

Do not turn over the page or commence the knowledge test until the invigilator instructs you to

THIS PAPER MUST NOT BE COPIED OR CIRCULATED WITHOUT THE WRITTEN PERMISSION OF THE EUIAS

DO NOT DETACH Spare paper for to use for calculations or working out

(A) First principles relating to the operation and maintenance of appropriate plant and equipment (7 Questions)

Question 01				
On w	On what type of installation would you fit this design of washer?			
Poss	ible answers	Answer		
a)	High corrosion			
b)	High temperature			
c)	High vibration			
d)	High pressure			

Question 02

Maximum and or minimum values that are permitted for specific maintenance operations are commonly described as:

Poss	ible answers	Answer
a)	Factors of safety	
b)	Rules of thumb	
c)	Margins	
d)	Tolerances	

Ques	Question 03		
Safet	Safety critical equipment should be maintained		
Poss	ible answers	Answer	
a)	as safety critical equipment does not need testing		
b)	more frequently that non safety critical equipment		
c)	less frequently that non safety critical equipment		
d)	at the same period as safety non-critical equipment		

Which statement best describes what is meant by the terminology "specification"?

Poss	ible answers	Answer
a)	The capacity to endure continuous force	
b)	The standard when measured against another object of similar design	
c)	Detailed description of the design and materials of an object	
d)	The specified point beyond which certification is invalid	

Ques	Question 05				
What	What type of maintenance is applied when something stops working?				
Poss	Possible answers Answer				
a)	Planned				
b)	Preventative				
c)	Corrective				
d)	Shutdown				

What do the initials IP followed by 2 numbers refer to when seen on a piece of equipment?

Poss	ible answers	Answer
a)	Internal pressure	
b)	Integrity protection	
c)	Ingress protection	
d)	Increased pressure	

Question 07

Which of the following is commonly classed as safety critical?

Poss	ible answers	Answer	
a)	Control valve		
b)	Fuse		
c)	Steam trap		
d)	Drain valve		

(B) Relevant industry health and safety standards, regulations, and environmental and regulatory requirements (9 Questions)

Question 08

What does the coloured tag on a piece of rigging equipment mean?

Poss	ible answers	Answer
a)	Certification period	
b)	Safe working load	
c)	Maximum working load	
d)	Safe to use	

Question 09			
When seen on site, what does a green safety sign signify?			
Poss	Possible answers Answer		
a)	Mandatory		
b)	Prohibited		
c)	Information		
d)	Warning		

Ques	stion 10					
What	What document should be fixed to a scaffold before you use it?					
Poss	ible answers		Answer			
a)	Risk assessment					
b)	Safety certificate					
c)	Approved Scafftag					
d)	Permit to work					

Looking at the image provided and taking into consideration risk, which task would you say is low probability and low in impact?

Poss	Possible answers Answer		A	В
a)	А		²	
b)	В		С	D
c)	С			04
d)	D			r

Ques	Question 12			
When personal protection equipment is identified on the work control document, identify which statement is correct?				
Poss	ible answers	Answer		
a)	PPE is recommended			
b)	PPE is advised			
c)	PPE is good practice			
d)	PPE is mandatory			

Ques	Question 13		
In accordance with HSE regulations, how would you know if a substance was regarded as hazardous?			
Poss	Possible answers Answer		
a)	The container will be coloured red		
b)	It will be contained in a glass receptacle		
c)	It will have a label identifying the hazard		
d)	It will give off a strong odour		

According to the Confined Space Regulations 1997, which of the following locations is not regarded as a confined space?

Poss	ible answers	Answer	
a)	Storage tank		
b)	Termination cabinet		
c)	Floor void		
d)	Pipe trench		

Question 15

In accordance with HSE guidelines, isolations can only be applied by

Poss	Possible answers		Answer
a)	Lead technicians		
b)	Authorised people		
c)	Skilled people		
d)	Experienced people		

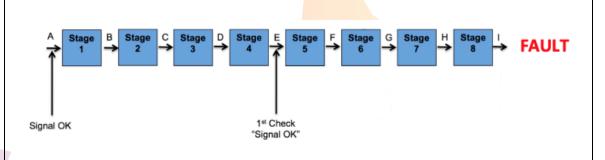

Which manual handling statement is true?

Poss	ible answers	Answer
a)	Correct manual handling prevents all accidents	
b)	Correct manual handling prevents damage to equipment	
c)	Correct manual handling reduces the risk of human injury	
d)	Correct manual handling should only be applied in the workplace	

(C) Maintenance and operational practices, processes and procedures covering a range of plant and equipment (5 Questions)

Question 17

Using the half split principal and referring to the information provided in the image, at which position should you logically make the next check when fault finding?

Poss	ible answers	Answer
a)	Point C	
b)	Point F	
c)	Point G	
d)	Point I	

Ques	Question 18		
What regulation provides guidance on the use of handheld tools?			
Possible answers Answer			
a)	PUWER		
b)	СОМАН		
c)	LOLER		
d)	СОЅНН		

What is being measured in this image?

Poss	ible answers	Answer
a)	Temperature	
b)	Vibration	
c)	Pressure	
d)	Speed	

When seen on a British Standard convention drawing, what does this symbol represent?

Poss	ible answers	Answer
a)	Electrical signal	
b)	Pneumatic line	
c)	Hydraulic line	
d)	Instrument signal	

Question 21

What type of maintenance can be applied to check the long-term performance of equipment to identify problems before the yoccur?

Possible answers		Answer
a)	Preventative	
b)	Risk based	
c)	Condition based	
d)	Corrective	

(D) The relevant engineering theories and principles relative to their occupation (9 Questions)

Question 22

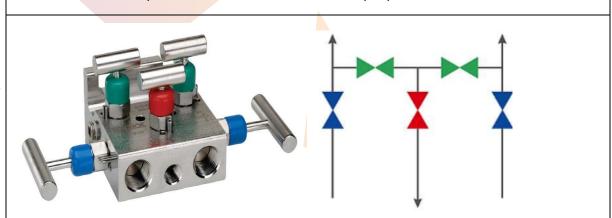

A pressure transmitter with a range of 0-200 mbar is showing a feedback signal of 16mA. Assuming that the transmitter is calibrated correctly what is the actual line pressure?

Poss	ible answers	Answer
a)	100 mbar	
b)	120 mbar	
c)	150 mbar	
d)	160 mbar	

Question 23			
Complete the sentence. A measurers a change in process conditions.		ange in process	
Possible answers		Answer	
a)	Sensor		
b)	Microprocessor		
c)	PLC		
d)	Convertor		

Question 24			
What is the most common output range of a pneumatic transmitter?			
Possible answers Answer			
a)	0 to 1.9 bar		
b)	0.2 to 1.0 bar		
c)	0 to 15 bar		
d)	2 to 20 bar		

On this differential pressure manifold, what is the purpose of the red handle valve?

Possib	ble answers	Answer
a)	Isolating pressure to transmitter	
b)	Isolating mains pressure	
c)	Venting pressure	
d)	Equalising pressure	

Questi	Question 26		
What does the third wire on a 3 wire Resistance Temperature Device do?			
Possik	Possible answers Answer		
a)	Compensates field wire resistance		
b)	It acts as a spare sensor wire		
c)	It is the power supply wire		
d)	Increases lifespan of device		

What effect would a loose connection have on a Resistance Temperature Device temperature loop?

Possible answers			Answer
a)	Low reading		
b)	Static signal		
c)	Fluctuating signal		
d)	No effect		

Question 28

What principal of level measurement is depicted in this image?

Poss	ible answers	Answer	
a)	Capacitance Probe (RF)		
b)	Displacement		
c)	Ultrasonic		
d)	Differential pressure		L

Ques	Question 29		
A Ma	A Manometer consists of a		
Poss	ible answers	Answer	
a)	"U" shaped tube, open to atmosphere on one side and open to the fluid to be measured on the other side		
b)	Metal tube that extends as pressure builds up		
c)	A vertical tube, filled with mercury and open to the atmosphere		
d)	A series of bourdon tubes connected in series		

What type of sensing device is used on this flow installation?

Poss	ible answers	Answer
a)	RF probe	
b)	Orifice plate	
c)	Venturi tube	
d)	Turbine meter

MOET Portfolio Readiness Checklist – Control and Instrumentation technician pathway

Use this form to check your portfolio covers the required parts of the standard

Apprentice Name			Co	Company/Location		
Brief c	Brief description of the work-based tasks					
Core I	Knowledge					
CK1	First principles relating to operation and maintenance of plant and equipment		CK2	Relevant industry health and safety standards, regulations and environmental and regulatory requirements		
СКЗ	Maintenance and operational practices, processes and procedures		CK4	Relevant engineering theories and principles		
Core S	Skills and Behaviour					
CS5	Read, understand, interpret and work to technical information		CS6	Locate and rectify faults on plant & equipment		
CS7	Inspect and maintain plant & equipment		CS8	Communicate, handover & confirm that the appropriate engineering process has been completed		
B5	Critical reasoning					
Specific Skills						
CI1	Position/assemble/install and dismantle plant & equipment		CI2	Planned, unplanned & preventative maintenance		
CI3	Replace/repair and or remove components		CI4	Diagnose and determine the cause of fault		
CI5	Calibrate and configure instrument and control systems					

The apprentice's manager/mentor is required to complete the details below to confirm the authenticity of the evidence portfolio

By signing below I confirm that the evidence in the apprentice's portfolio is his/her own work.		
Witness Name	Witness Signature	Date

Practical Observation Approval Form Guidance

Guidance

The purpose of the Practical Observation Approval Form is to ensure that the activity, proposed for the apprentice to complete during the MOET Practical Observation Assessment, is sufficiently complex to allow the apprentices to demonstrate the widest range of knowledge, skills and behaviours against the mandatory elements of the MOET EPA Standard.

Details of the mandatory elements are in Section 4 of the Specification.

Unless the site and tasks have previously been approved by EUIAS, the Approval Form should be completed and submitted to EUIAS a minimum of 20 working days before the expected date of the first practical observation. The form should be accompanied by photographs of the plant/ machinery which the apprentice will be working on.

A "complex" activity is defined as one that is completed in a number of individual stages in order to complete the activity. As an example, these stages could be broken down into the following sequence:

- Comply with industry health, safety and environmental working practices and regulations
- Prepare work areas to undertake work related activities and reinstate those areas after the completion of the work-related activities
- Communicate with and provide information to stakeholders in line with personal role and responsibilities
- Read, understand and interpret information and work in compliance with technical specifications and supporting documentation
- Inspect and maintain appropriate plant and equipment to meet operational requirements
- Locate, and rectify faults on plant and equipment
- Assess and test the performance and condition of plant and equipment
- Communicate, handover and confirm that the appropriate engineering process has been completed to specification

The above sequence comprises of the Core Skills elements of the MOET EPA, which closely reflects the practices and processes of facilitating work activities in the industry sectors, which are identified in the MOET Assessment Plan.

In addition to the Core Skill elements detailed above, the proposed activity must also allow the apprentice to demonstrate their knowledge, skills and behaviours against one of the Specific Skill elements detailed in Section 4 of the Specification.

It is important to note that if, during the assessment, any aspect of the performance that needs to be assessed does not occur naturally, the independent assessor (technical expert) will ask the apprentice questions to give them the opportunity to cover the area of the standard.

The time taken to complete the proposed activity(s) should typically take no longer than one day. However, the actual time allowed should be based on the comparable time that an industry competent worker would take to achieve successful activity(s) completion.

As a rule of thumb, an activity(s) that would take only 2 hours to complete would be considered to be insufficiently complex and would likely restrict the opportunity for the apprentice to demonstrate their full range of knowledge, skills and behaviours.

MOET Practical Observation Approval Form
