Gas Network Craftsperson – Pipeline Maintenance
On Programme Evidence Requirements – Logbook Review

This document is a requirement for the Technical Interview Part 2 – On Programme Evidence (pre-gateway), this document needs to be completed by the Apprentice prior to gateway to knowledge and skills written assessment and needs to verified by the End-point Independent Assessor as a factual representation of the log book.

For each of the following Core Knowledge Skills and Behaviours (KSB's) needs to be evidenced a minimum of twice, the evidence can be based on direct observations, formative assessment and reviews. Other sources that can be included are certificates of training, job cards and work records, maintenance records, risk assessments and photographs of work place activities, journal entries. The evidence cannot include any methods of self-assessment. Each piece of evidence may demonstrate more than one of the below KSB's.

This document must be fully populated no later than 7 days after the completion of the practical tasks and before the interview.

Core Requirements -Knowledge	Definition	Evidence Criteria 1	Evidence Criteria 2	Evidence Criteria 3	Evidence Criteria 4	Evidence Criteria 5	Evidence Criteria 6
CK1	Company testing and commissioning procedures needed to establish the condition of gas assets, equipment, network infrastructure and the actions needed as a result of the tests. This includes both practical applications and the use of diagnostic techniques and IT systems						

CK4	Company maintenance practices, processes and procedures associated with gas network systems, controls and equipment						
CK6	Company policies, procedures and engineering instructions as specified by the employer						
CS1	Undertake and document risk assessments in accordance with company procedures						
CS2	Comply with workplace health, safety & environmental practices and regulations, maintaining a safe and secure working environment						
CS3	Follow engineering instructions and company procedures to complete tasks safely and on-time						
CS4	Undertake inspection and examination of network assets in order to maintain the safe and compliant operation of the network to ensure the integrity, safety and security of supply						
CS5	Maintain and/or install gas engineering assets, components and associated equipment						

CS14	Liaise with gas consumers, statutory agencies and members of the public in order to ensure their safety						
CS15	Accurately update company systems with details of work undertaken						
CB2	Deliver a polite, courteous professional service to all customers, stakeholders and members of the public as appropriate						
CB4	Accept accountability when undertaking individual and team tasks						
CB7	Recognise personal limitations and seek advice from managers, experts and specialists when required						
CB9	Receptive to the needs and concerns of others, especially where related to diversity and equality						
CB10	Committed to carrying out and recording Continued Professional Development necessary to maintain and enhance competence						
CB11	Exercises responsibilities in an ethical manner						
CB12	Interacts with people and approaches work activities in a way that contributes to continuous self-improvement						

NPMC3	Inspect, monitor, maintain, dismantle, install and repair pipeline systems and equipment for example; flow regulators, safety devices, system protection devices, measurement devices and monitoring equipment						
NPMC5	Undertake corrosion prevention activities i.e. cathodic protection systems and monitoring, coating and wrapping						
NPMC6	Take action to prevent third parties causing damage to gas transportation pipeline assets and equipment i.e. tracing, marking, monitoring third party activities and responding to encroachments						
NPMC8	Consult design specifications to analyse and calculate pipeline system parameters and rectification procedures						
NPMC15	Organise additional resources to facilitate repairs as required						

Technical Expert Internal Quality Assurance: I verify the information provided in this document is a true reflection of the Logbook and demonstrates the Core Knowledge Skills and Behaviours required for this pathway.
