

Question and Answer Sheet

MOET – Plant Operation Technician Practice Paper

Time Allowed: 45 minutes

Company:

First Name:

Surname:

Date of birth:

Candidate No:

You will need: a pen, a scientific calculator is permitted, any additional tables or diagrams will be provided by the EUIAS.

Mobile phones and watches must not be taken into the examination room. The examination must be conducted under examination conditions i.e. you may not speak to other candidates, if you have a problem raise your hand and the invigilator will attend.

You are not permitted to leave the examination room for the first 15 minutes and the last 15 minutes of the examination.

Cheating: you will be asked to leave the examination room and will be classified an automatic fail and referred to your employer.

Instructions:

You will see that there are questions, possible answers as well as a column for you to mark your answer. Please put an **X** against the possible answer you think is correct.

If you wish to change your answer, please put a line through the **X** and re-select.

Only one answer per question allowed. Answers which do not follow the rules of selection will be disallowed. This may impact on the grade awarded.

Please turn over to see an example.

Sample:

London is the capital of....

Example Question		
London is the capital of?		
Possible answers		Answer
a)	Wales	
b)	Scotland	
c)	Northern Ireland	
d)	England	X

Do not commence the knowledge test until the invigilator tells you to.

(A) First principles relating to the operation and maintenance of appropriate plant and equipment (7 Questions)

Question 01		
On what type of installation would you fit this design of washer?		
Possible answers		Answer
a)	High corrosion	
b)	High temperature	
c)	High vibration	
d)	High pressure	

Question 02		
The maximum and/or minimum values that are permitted for specific maintenance operations are commonly described as what?		
Possible answers		Answer
a)	Factors of safety	
b)	Rules of thumb	
c)	Margins	
d)	Tolerances	

Question 03		
Which statement is correct? Safety critical equipment should be maintained		
Possible answers		Answer
a)	safety critical equipment does not need testing	
b)	more frequently that non safety critical equipment	
c)	less frequently that non safety critical equipment	
d)	at the same period as safety non-critical equipment	

Question 04		
Which statement best describes what is meant by the terminology “specification”?		
Possible answers		Answer
a)	The capacity to endure continuous force	
b)	The standard when measured against another object of similar design	
c)	Detailed description of the design and materials of an object	
d)	The specified point beyond which certification is invalid	

Question 05		
What type of maintenance is applied when something stops working?		
Possible answers		Answer
a)	Planned	
b)	Preventative	
c)	Corrective	
d)	Shutdown	

Question 06		
When seen a piece of equipment what do the initials IP followed by 2 numbers refer to?		
Possible answers		Answer
a)	Internal pressure	
b)	Integrity protection	
c)	Ingress protection	
d)	Increased pressure	

Question 07		
Which of the following is commonly classed as safety critical?		
Possible answers		Answer
a)	Control valve	
b)	Fuse	
c)	Steam trap	
d)	Drain valve	

(B) Relevant industry health and safety standards, regulations, and environmental and regulatory requirements (9 Questions)

Question 08		
What does the coloured tag on a piece of rigging equipment mean?		
Possible answers		Answer
a)	Certification period	
b)	Safe working load	
c)	Maximum working load	
d)	Safe to use	

Question 09		
When seen on site, what does a green safety sign signify?		
Possible answers		Answer
a)	Mandatory	
b)	Prohibited	
c)	Information	
d)	Warning	

Question 10		
What document should be fixed to a scaffold before you use it?		
Possible answers		Answer
a)	Risk assessment	
b)	Safety certificate	
c)	Approved Scafftag	
d)	Permit to work	

Question 11		
Looking at the image provided and taking into consideration risk, which task would you say is low probability and low in impact?		
Possible answers		Answer
a)	A	X
b)	B	
c)	C	
d)	D	

Question 12		
When personal protection equipment is identified on the work control document, which of the following statements is correct?		
Possible answers		Answer
a)	PPE is recommended	
b)	PPE is advised	
c)	PPE is good practice	
d)	PPE is mandatory	

Question 13		
In accordance with HSE regulations, how would you know if a substance was regarded as hazardous?		
Possible answers		Answer
a)	The container will be coloured red	
b)	It will be contained in a glass receptacle	
c)	It will have a label identifying the hazard	
d)	It will give off a strong odour	

Question 14		
According to the Confined Space Regulations 1997, which of the following locations is not regarded as a confined space?		
Possible answers		Answer
a)	Storage tank	
b)	Termination cabinet	
c)	Floor void	
d)	Pipe trench	

Question 15		
In accordance with HSE guidelines, isolations can only be applied by		
Possible answers		Answer
a)	Lead technicians	
b)	Training and authorised people	
c)	skilled people	
d)	experienced people	

Question 16		
Which of the following manual handling statements is true?		
Possible answers		Answer
a)	Correct manual handling prevents all accidents	
b)	Correct manual handling prevents damage to equipment	
c)	Correct manual handling reduces the risk of human injury	
d)	Correct manual handling should only be applied in the workplace	

(C) Maintenance and operational practices, processes and procedures covering a range of plant and equipment (5 Questions)

Question 17		
Using the half split principal and referring to the information provided in the image, at which position should you logically make the next check when fault finding?		
		
Possible answers		Answer
a)	Point C	
b)	Point F	
c)	Point G	
d)	Point I	

Question 18		
What regulation provides guidance on the use of handheld tools?		
Possible answers		Answer
a)	PUWER	
b)	COMAH	
c)	LOLER	
d)	COSHH	

Question 19		
What is being measured in this image?		
		
Possible answers		Answer
a)	Temperature	
b)	Vibration	
c)	Pressure	
d)	Speed	

Question 20		
When seen on a British Standard convention drawing, what does this symbol represent?		
		
Possible answers		Answer
a)	Electrical signal	
b)	Pneumatic line	
c)	Hydraulic line	
d)	Instrument signal	

Question 21		
What type of maintenance can be applied to check the long-term performance of equipment to identify problems before they occur?		
Possible answers		Answer
a)	Preventative maintenance	
b)	Risk based maintenance	
c)	Condition based maintenance	
d)	Corrective maintenance	

(D) The relevant engineering theories and principles relative to their occupation (9 Questions)

Question 22		
<p>What service does this device apply to process fluids?</p> 		
Possible answers		Answer
a)	Pressure drop	
b)	Filtration	
c)	Temperature exchange	
d)	Mixing	

Question 23

What operating principal does this instrument use to measure the rate of flow?

Possible answers

Answer

- a) Differential pressure
- b) Speed of flight
- c) Venturi effect
- d) Bourdon tube

Question 24

The terminology LO/LC is often used when applying which set of procedures?

Possible answers

Answer

- a) Inhibit/override
- b) Isolation
- c) Risk assessment
- d) Manual handling

Question 25		
What effect does an NRV have when located in a process pipeline?		
Possible answers		Answer
a)	Releases pressure at a given set point	
b)	Acts as a self-regulating pressure control valve	
c)	Restricts flow to one direction only	
d)	Aerates the fluid flowing through the pipework	

Question 26		
Which of the following statements best defines the terminology "viscosity"?		
Possible answers		Answer
a)	The degree of compactness of a substance	
b)	A substance that has no fixed shape	
c)	The state of being thick in consistency	
d)	Firm and stable in shape	

Question 27		
When seen on a piping and instrument drawing when does this symbol represent?		
		
Possible answers		Answer
a)	Electric heater	
b)	Heat exchanger	
c)	Check valve	
d)	Pressure safety valve	

Question 28		
If fluid A had a higher specific gravity than fluid B and they were both contained in the same environment, which statement is true?		
Possible answers		Answer
a)	Both liquids would mix together	
b)	Fluid B would gravitate to below fluid A	
c)	Fluid A would gravitate to below fluid B	
d)	An explosive atmosphere would be created	

Question 29		
What operating principal does this instrument use to measure the level in the vessel?		
Possible answers	Answer	
a)	Differential pressure	
b)	Ultrasound	
c)	Radio waves	
d)	Capacitance	

Question 30		
A pump is showing symptoms of higher than normal levels of both noise and vibration. What would commonly be the cause of this condition?		
Possible answers	Answer	
a)	Increased pressure in line	
b)	Blockage in the discharge line	
c)	Higher than normal temperatures	
d)	Cavitation in pump
