

Additional Assessment Criteria for Operative Certificate – Reinstatement in cold-lay bituminous materials (O5)

Please note the following assessment criteria is **not** included in the unit content for the Operative Street Works Certificate O5 (Reinstatement in cold-lay bituminous materials). However, it **is** covered in the knowledge assessment, which underpins this Certificate. It will therefore need to be covered in the teaching / delivery of the associated Operative Street Works Certificate.

Learning Outcome 4: AC4.8

State the potential consequences of incorrect pavement layer construction

Learning Outcome 4: AC4.9

Define the use and limitations of cold-lay bituminous materials
