

Additional Assessment Criteria for Operative Certificate – Reinstatement of concrete slabs (O7)

Please note the following assessment criteria is **not** included in the unit content for the Operative Street Works Certificate O7 (Reinstatement of concrete slabs). However, it **is** covered in the knowledge assessment, which underpins this Certificate. It will therefore need to be covered in the teaching / delivery of the associated Operative Street Works Certificate.

Learning Outcome 2: AC2.10

State why loose and unacceptable materials are removed from the area to be reinstated

Please do not hesitate to contact the Qualifications team for further information or if you have any questions: qualifications@euias.co.uk
